

(The Explorer, 1980)

SUSTAINING MEMBERSHIP CHANGE

Effective immediately, the *Emergency Treatment Tape Series* will no longer be available on loan to Sustaining Members. Instead, members may purchase the series outright for their own private unlimited use.

This is the Institute cassette tape program for use during major surgery, illness or injury which has proved so successful in bringing about fast recuperation and healing, as well as control of pain and post-operative shock. The problem has been that when loaned, the tapes have rarely been returned. Members have preferred to keep them ready in their "medicine chest" in the event of another emergency.

Price for the Emergency Treatment Series for Members is listed in this edition of the EXPLORER.

INSTITUTE TAPES AVAILABLE

The following tapes may be purchased from the Institute Headquarters in Virginia:

Description

Emergency Treatment Series (3 cassettes)	\$27.00
